SUBJECT: MATHS

General Instructions:

All work must be done neatly in your Mathematics notebook.

Use pencil for figures, ruler for drawings, and color for charts.

Activity, charts, and models may be done on A4 or chart paper.

All questions are compulsory.

Q-1) Explain the following concepts in your own words.

- 1) percentages
- 2) Profit/loss
- 3) Simple interest
- 4) Perimeter and area of plane figures
- 5) Exponents and powers
- 6) Algebraic expressions
- 7) Simple equations

Q-2) Write clear definitions for:

Ratio and proportion

Percentage

Exponent

Variable and constant

Coefficient

Equation

Like /Unlike terms

Q-3) Prepare Charts (Any one)

Exponent rules chart

Percentage examples chart

Q-4) Prepare Models (Any-1)

Make a fraction/percentage wheel

Make rectangle and square models using cardboard showing area and perimeter

Activity for exponents: showing repeated multiplication

Q-5) Draw Figures on A4 sheets

Rectangle, square, parallelogram, Cube, cuboid

Q-6) Write Formulae and laws in mathematics notebook.

Write all the formulas from the chapter Perimeter and area

Write all the laws of exponents

Q-7) Explain the theorems (In your maths notebook/A3 size sheet). [Any 2]

Theorem 1): Multiplying numerator and denominator of a fraction by the same non-zero number does not change its value. Explain this with an example

Theorem 2): Terms with different variables cannot be added or subtracted.

Look at $3x + 4y$. Can we add them? Explain your answer with reasoning.

Theorem 3): Multiplying or dividing both sides of an equation by the same non-zero number keeps it balanced.

Solve $3x = 12$ by dividing both sides. Explain why it works.

Theorem 4): Rectangles with the same perimeter may have different areas.

Draw two rectangles with perimeter 20 cm. Compare their areas and explain why they are different.

Q-8) Prepare a PORTFOLIO ACTIVITY

Net of a Cuboid

Instructions

Take a cuboid with length = 6 cm, breadth = 4 cm, height = 3 cm

Draw its net on an A4 sheet:

2 rectangles of length \times breadth

2 rectangles of length \times height

2 rectangles of breadth \times height

Label all sides with correct measurements.

Use different colors to distinguish faces (optional)

Write a short note:

- How the net helps visualize the 3D cuboid in 2D.
- Relation of net to surface area of cuboid.

Cut out the net and fold to make the cuboid. Paste a small photo of your model in your portfolio.

SUBJECT: SCIENCE

SECTION A: MULTIPLE CHOICE QUESTIONS

1. The transfer of pollen from anther to stigma is called: a) Germination b) Fertilization c) Pollination d) Budding
2. Which tissue helps in upward movement of water in plants? a) Phloem b) Xylem c) Cambium d) Cortex
3. Image formed by a plane mirror is: a) Real and inverted b) Virtual and erect c) Real and erect d) Enlarged
4. Which device is used to control current in a circuit? a) Bulb b) Switch c) Wire d) Battery
5. Wastewater released from homes is called: a) Sewage b) Sludge c) Manure d) Drain
6. Which is a decomposer in the forest ecosystem? a) Deer b) Tiger c) Mushroom d) Grass

SECTION B: FILL IN THE BLANKS

1. Potato reproduces by _____ reproduction.
2. Loss of water from leaves is called _____.
3. The point where light rays meet is called _____.
4. A long wire produces more _____ effect of current.
5. Treated wastewater can be reused for _____.

SECTION C: VERY SHORT ANSWER QUESTIONS

1. What is vegetative propagation?
2. Name the liquid part of blood.
3. What is lateral inversion?
4. Name any one good conductor of electricity.
5. What is sludge?

SECTION D: SHORT ANSWER QUESTIONS

1. Differentiate between sexual and asexual reproduction in plants.
2. State properties of plane mirrors.
3. Explain waste water treatment plant with the help of flowchart

SECTION E: ACTIVITY-BASED QUESTIONS

- **Transportation Chart:** Draw a neat flow chart showing transportation of materials in plants
- **Mirror Magic:** Using a spoon, observe your image on both sides. Write your observations
- **Forest Poster:** Design a poster on “*Save Forests – Save Life*”.

SECTION F: HOTS (Higher Order Thinking Skills)

1. Farmers prefer vegetative propagation for some crops. Why?
2. What would happen if xylem tissue stopped working in plants?

Learn with fun:

Jadav 'Molai' Payeng is an environmental activist and forestry worker from Majuli, popularly known as the 'Forest Man of India'. Over the course of several decades, he has planted and tended trees on a sandbar of the river Brahmaputra turning it into a forest reserve.

Collect some more information about him with the help of your teacher, peer group or internet. How impressed you are with the efforts of Jadav? Can he be your role model?

SUBJECT: SOCIAL SCIENCE

QUESTION-ANSWER WORK

A. Answer the following questions:

1. Who were nomads? How were they different from settled communities?
2. What is patronage? Name two examples from medieval India.
3. Write three features of Mughal administration.
4. How did regional cultures develop in India?

9. What is equality? Why is it important in a democracy?
10. What are public facilities? Give two examples.

B. Short Notes (Write any FIVE):

1. Bhakti Movement
2. Sufi Saints
3. Regional Languages
4. Water Conservation
5. Human Environment
6. Markets
7. Temple Architecture

C. Very Short Answer Questions:

1. What is a market?
2. Name two natural resources.
3. What is water conservation?
4. Who provides public facilities?

5. What is human environment?

MAP WORK

On an outline map of India, mark and label:

Any 5 major rivers

Any 3 mountain ranges

CASE STUDY

Read the passage and answer the questions:

A village does not have clean drinking water and schools. People travel far to meet their basic needs.

Which public facilities are missing in the village?

Who is responsible for providing these facilities?

How will these facilities improve people's lives?

CREATIVE & ACTIVITY WORK

1. Timeline Activity

Create a timeline of 5 important events from medieval Indian history using colours and drawings.

2. Environment Activity

Write 10 ways in which students can protect the environment at home and school.

PROJECT WORK (COMPULSORY)

Topic: "My Environment, My Culture, My Responsibility"

Include:

One page on Indian culture (food, dress, festivals, or dances of any one state)

One page on protecting the environment

At least 3 pictures

A short conclusion (5 lines)

REFLECTION

Write 5 lines on: "What I learnt from Social Science this year."

SUBJECT: ART

- 1 .Draw a posters on republic Day with slogan on A3 sheet.
- 2 .Craftwork: Make a wall hanging did the use of different things. (Plastic bottle, wooden stick , colorful sheets, tissue paper thread)

SUBJECT: COMPUTER

SECTION-A

Q1. Fill in the blanks:

- i. A conditional statement checks whether a _____ is true or false.
- ii. The keyword used for the first condition is _____.
- iii. The keyword used for an alternative condition is _____.
- iv. The keyword used for multiple conditions is _____.
- v. A block of code inside an if-statement is written using _____.
- vi. In HTML, tables are defined using the <table>, <tr> and <td> tags together to show _____ data.
- vii. The term Algorithmic Intelligence means intelligence shown through _____ and data – driven methods.
- viii. stands for _____.
- ix. An algorithm is a step-by-step _____ to solve a problem.
- x. AI for SDGs supports the goal of _____ education and clean energy.

Q2. True or False:

- i. If statement works only when the condition is true. ()
- ii. Else can exist without an if. ()
- iii. Python uses indentation to define a code block. ()
- iv. Elif means “else-if”. ()
- v. <TD> tag stands for Table Duplicate.

Q3. Multiple Choice Questions:

- i. Which is correct?
a) if x = 5: b) if x == 5: c) if (x equals 5):
- ii. Which keyword checks another condition?
a) if b) else c) elif
- iii. How many else statements?
a) One b) Two c) Many
- iv. Algorithmic intelligence refers to:
a) The ability of machines to follow a set of rules
b) Robots with human emotions
c) Automatic sensing
d) Voice recordings systems
- vi. Ordered list in HTML are created using:

a)

b)

c)

SECTION-B

Q4. Answer the following questions:

- i. Write any three advantages of using HTML5 over older versions.
- ii. Define a conditional statement in Python with one example.
- iii. Write the difference between the <th> and <td> tags.
- iv. Explain the importance of AI for SDGs in the modern world.
- v. What is an algorithm? Write one example from daily life.

SECTION-C

Q5. Practical Zone(Do on Computer or Notebook)

i. HTML Practical Task:

Create a webpage titled “My favourite subjects” using HTML5 that includes:

- A heading and a short paragraph
- An ordered list of your 5 favourite subjects
- A table showing subject name, teacher’s name, and your marks
- Background color or font styling using CSS

(Write the code in your notebook if you can’t use the computer)

ii. Algorithm and Flowcharts Task:

- Write an algorithm to find the largest of three numbers.
- Draw a flowchart for the same.

iii. Python Coding Task:

- Write a Python program to check whether a number entered by the user is even or odd.
- Create a basic calculator in Python that can perform basic arithmetic operations.

Q6. Write a paragraph(6-8 lines) on the topic:

“How AI can help in achieve a better future for all”.

Q7. Create a poster/chart according to given Roll No.:

- i. “Artificial Intelligence for Sustainable Development Goals (AI for SDGs)”. Use colors, symbols and examples like AI in education, healthcare and environment. **(Roll No.: 1-16)**
- ii. Create a timeline chart of “Generation of computers.” **(Roll No.:- 17-36)**
 - 1st to 5th generation
 - Mention key features devices used (vacuum tubes transistors IC

microprocessor AI) and one example of each.

- Use coloured boxes or arrows for clarity.

iii. Prepare a chart on “Memory Units and Storage devices.” (Roll No.: 37-48)

- Show hierarchy: Bit → Byte → KB → MB → GB → TB
- Add pictures of storage devices like Hard Disk, Pen drive, CD, Cloud Storage, etc.

Q8. Explain in your own words how AI can support these SDGs:

- SDG3- Good Health and Well-being
- SDG4-Quality Education
- SDG 13- Climate Action
